

Breaking the Language Barrier: Literacy Logic English Second Language Student Excels in Reading and Handwriting

Breyden using the concepts of print strategies to read his book during independent reading time.

Breyden creating sentences using sight words to explain the meaning of each word

According to data from the National Center of Education Statistics, the percentage of public-school students in the United States who were English Second Language (ESL) learners has increased to 10.4 % or 5.1 million students. English Second Language (ESL) students struggle to comprehend text and lack foundational reading skills due to not understanding English. This has caused a lack of confidence in students and dropout rates to rise in the ESL community. Breyden Rivera, a student in the Literacy Logic Rocket Reader Program mastered foundational reading and handwriting skills. Breyden attends at Dover Shores Elementary School in Orlando, Florida. Breyden, a 1st grader, joined the Rocket Reader Program in September 2022.

Breyden's receives in person tutoring with Briana Young, CEO and Founder of Literacy Logic, to develop his skills in reading and handwriting. The Rocket Reader Program program gave Breyden foundational reading and fine motor skills training to master skills required for his grade level in English and Language Arts. Breyden is from an ESL community. The primary language in his home is Spanish. an (ESL) English Language Learner, his home language is Spanish. When Breyden first enrolled in the Rocket Reader program, he was unable to consistently read English text and struggled with writing.

The Rocket Reader program focused on building Breyden's foundational skills in reading and handwriting. He learned concepts of print, phonemic awareness and vocabulary building strategies. Breyden learned how to become a more confident reader and loves to read books independently now. His handwriting has improved with the formation of letters and spacing techniques. Breyden is now on grade level in reading and writing. He continues show more confidence in his abilities.
